

# Technical Perspectives on Analyst's Rating Changes

BYI – case study

03-02-2008

BYI – The TPARC report from May 3, 2006 indicated that a major base had formed and that the stock had made a major upside breakout. The upside breakout followed through and the stock has enjoyed a major advance since the TPARC report was prepared. The stock has gained more than 100% since that report.
