

Technical Perspectives on Analyst's Rating Changes

FDG - case study
08-24-2008

FDG – The TPARC report for June 18, 2007 called attention to the up trend and that the stock was performing well. This was the beginning of a major long-term up trend in the stock. The stock has moved from \$32 per share to almost \$90 per share recently. The stock recorded several consolidations during the move up but it remained consistently above the 45-degree Bullish Support Line. This stock was one of the biggest winners in the market over the past year.
