

Technical Perspectives on Analyst's Rating Changes

GVHR case study

02-18-2008

GVHR – The TPARC report for September 20, 2006 noted that the stock was in a downtrend and it was performing poorly. The downtrend continued and the stock has lost almost 75% of its value from the price shown on the TPARC report. There were no serious rally attempts on the way down.
