

# Technical Perspectives on Analyst's Rating Changes

INHX case study

03-04-2007

INHX broke badly just after this TPARC report was prepared. Subsequently, the stock has lost almost all of its value.

W. Clay Allen CFA

INHX - Rating change from "overweight" to "under-weight." There were two downgrades on INHX today.

Backing away from resistance. Serious loss of upside momentum. Very close to a downside breakout. Sideways movement may be a consolidation or a top. The constant percent chart shows a more definite downtrend.
