

Technical Perspectives on Analyst's Rating Changes

JNY – case study

02-23-2008

JNY – By the time the TPARC report that covered JNY was prepared in August of 2005, the stock had already been trending down for over a year. The downtrend has continued and the performance of JNY has been very bad. The stock lost over 50% of its value during the two years that followed the TPARC report.
