

Technical Perspectives on Analyst's Rating Changes

SLE – case study
02-16-2008

SLE – This stock was described as "disappointing investors" back in February of 2006. The disappointment continues. The persistent long-term downtrend shown on the TPARC report continues and the stock has lost about 20% of its value. This is an example of how long a major company can continue to go down. This is another example of a "value trap" stock.
